Access, Security & Field Operations

Humanitarian access · Security · Mobile services · Communications

4 modules · Turkish · English · Arabic

Build the skills that crises demand

Delivered by practitioners with active field experience internationally.

dunyadoktorlari.org.tr

ABOUT THIS PACKAGE

This package equips field teams with the specialized skills to operate safely, maintain humanitarian access, and deliver services in complex and high-risk environments. Modules draw on DDD's operational experience navigating access constraints in hard-to-reach and conflict contexts like Syria and Libya, and during natural disasters such as earthquake responses in Türkiye in 2020, and 2023.

OUR TRAINING IMPACT

100%

participant satisfaction

46+

trained in a single workshop

8+

organisations per training event

Knowledge retained at 6 months · Integrated into organisational practice · Cross-sector reach

WHY DDD TRAINING?

Practitioners, not just trainers

Every DDD trainer is an active practitioner in their sector with direct operational experience in Türkiye and abroad. Our training reflects what actually happens in the field, not just what textbooks prescribe.

Context-specific and evidence-based

DDD's curriculum is built on systematic gap analysis of the Turkish humanitarian sector and international practice. Modules are aligned with international standards on IASC, Sphere, and OCHA standards while incorporating national specific legal, operational, and cultural context — so learning translates directly into better practice.

Cross-sector and multilingual

DDD trainings routinely bring together staff from of diverse backgrounds in a single room. With training delivery available in Turkish, English, and Arabic, we reach teams across the full spectrum of humanitarian and social sector actors.

DELIVERY FORMATS

- In-person workshops — full-day and multi-day sessions
- Online & remote — live virtual delivery with interactive facilitation
- Blended learning — self-paced pre-reading combined with facilitated group sessions
- Certificate programmes — multi-module pathways with assessment and DDD certification
- Custom packages — bespoke content and curriculum design for your specific context

TRAINING MODULES

MODULE 1

Humanitarian Access and Negotiation Training

Equips humanitarian practitioners with the principles, frameworks, and practical skills to negotiate and maintain access to crisis-affected populations.

Learning objectives

- Understand international humanitarian law (IHL) and the legal basis for humanitarian access
- Apply principled humanitarian negotiation frameworks with a range of actors
- Conduct stakeholder mapping and context analysis for access planning
- Manage access constraints and adapt operations in volatile environments
- Document and report access incidents in line with humanitarian coordination requirements

Target audience: Senior field staff, country directors, access and logistics managers

Duration: 1–2 days **Format:** In-person

MODULE 2

Security Procedures and Guidelines in Humanitarian Contexts

Provides humanitarian workers with the security awareness, risk assessment tools, and protocols to operate safely in complex and volatile environments.

Learning objectives

- Apply personal and organisational security management frameworks
- Conduct security risk assessments and develop context-appropriate security plans
- Implement minimum operating security standards (MOSS) in field operations
- Respond to security incidents: evacuation, medical emergencies, hostile situations
- Apply duty-of-care obligations as a manager or team leader

Target audience: All field staff and managers working in complex or high-risk environments

Duration: 1 day **Format:** In-person

MODULE 3

Mobile Services in Disaster Contexts

Addresses the design, management, and quality assurance of mobile health, protection, and social service delivery in disaster and displacement settings.

Learning objectives

- Design mobile service delivery models for health, MHPSS, and protection
- Plan mobile unit routes, outreach areas, and community engagement strategies
- Ensure quality and consistency of services delivered through mobile modalities
- Integrate digital tools and referral systems into mobile service delivery
- Coordinate mobile services with fixed facilities and inter-agency partners

Target audience: Mobile unit managers, health coordinators, field logistics officers

Duration: 1 day **Format:** In-person / Blended

MODULE 4

Communication and Visibility in Disaster Contexts

Equips humanitarian organisations to communicate responsibly and effectively — meeting donor visibility requirements while respecting the dignity and privacy of affected persons.

Learning objectives

- Apply ethical storytelling and dignity-based communication principles
- Develop communications strategies that meet donor visibility and branding requirements
- Manage social media and media relations during humanitarian crises
- Protect beneficiary privacy and avoid re-traumatisation in communications
- Coordinate communications with inter-agency partners and humanitarian clusters

Target audience: Communications officers, programme staff, field managers

Duration: 1 day **Format:** In-person / Online
